ALLOWANCE

1. Claim 1-11, 13-20, 22, 23, 27-38, 51-59, 61, 65, 76-87, 110-114, 116, 119, 127, 131, 135 and 141-146 are allowed.

The following is an examiner's statement of reasons for allowance:

Florin discloses a mosaic (Figures 33-35). Florin discloses receive a program in encrypted form on a first channel of the plurality of digital television channels as there are pay per view programs or premium programs (Column 9, lines 13-25, Figure 2, 66, Column 10, lines 47-57, Column 11, lines 30-32), wherein the program comprises both encrypted audio and encrypted video as programs with audio and video need to be descrambled (Column 9, lines 13-25, Column 11, lines 30-38) and a mosaic of unencrypted programs including the program such as a pay per view program (Column 9, lines 8-20, Column 20, lines 42-49, Column 21, lines 33-54, Column 23, lines 27-55, Column 9, lines 13-25). Florin discloses an encrypted program on a first channel or a pay per view program on a first channel and the decoder is configured to prohibit one of audio access or visual access to the selected program while the selected program is displayed in the mosaic upon determining that full access rights are not available for the corresponding at least one encrypted program or if the PIN number is not entered correctly the pay per view program is not displayed to the viewer and only the preview is displayed in the mosaic to the viewer as the program is not descrambled (Column 21, lines 33-54, Column 23, lines 27-55, Column 9, lines 13-25). Niiijima discloses a mosaic on a second channel (Column 8, lines 16-24, 46-59, Column 24, lines 59-67, Column

25, lines 1-3, Figure 5, Figure 25). Nijima discloses that there are programs that are deciphered by a cipher (Column 14, lines 53-65). Eyer discloses that the preview of a program is a preview of audio and video of a predetermined length of time (Column 5, lines 21-54, Column 10, lines 1-5, 13-27, 48-65) and that access is prohibited after that length of time based on a working key (Column 5, lines 21-54, Column 10, lines 1-5, 13-27, 48-65). Kitada discloses using working keys to prohibit one of only audio or video access (Column 3, lines 30-36, 50-60). Lett et al (US 5,592,551 and hereafter referred to as "Lett") discloses wherein the program remains in encrypted form on the first channel so that both audio access and visual access to the program on the first channel as if the user chooses to watch a program by tuning to it, the program is still scrambled unless he buys the program (Column 14, lines 53-62).

The prior art of record does not disclose the following limitations in conjunction with all other limitations:

Determine that full access rights are not available to a user for the program while the program is displayed in encrypted form in the mosaic on the second channel, wherein the decoder is configured to prohibit one of only audio access and only visual access to the program while the program is displayed in the mosaic on the second channel upon determining that full access rights are not available for the program, wherein the one of only audio access and only visual access is prohibited for the program in the mosaic on the second channel after a predetermined length of time, wherein the program remains in encrypted form on the first channel so that both audio access and visual access to the program prohibited on the first channel.

It is noted that a program in encrypted form on a first channel is a program that is not given full access rights including parental control and subscription program (Page 5, lines 21-27, Page 23, lines 26-31, Page 25, lines 23-25). It is noted that the program is displayed in encrypted form in the mosaic when it is determined that the full access rights are not available to a user.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
